

- "Zero Perm" Cladding
- Suitable for outdoor use
- One-piece construction
- No double handling of material
- Quick installation
- Unique lap closure system on tubular products
- 3' lengths for easy handling
- Damage/dent resistance
- Simple field repair
- Moisture resistant
- Mold & mildew resistant
- Fiber-free & non-dusting
- Improved system integrity
- Improved life cycle cost

# K-Flex Clad™ AL

## K-Flex Elastomeric Insulation with Aluminum Foil Laminated to Plastic Cladding

Aluminum tri-laminate comprised of

- PVC (bottom)
- Aluminum foil (middle)
- PET film (top)

Abuse-resistant Plastic laminated to aluminum foil "Zero Perm"

Pressure sensitive adhesive (PSA) (seam seal system)

Overlap closure system

Flexible, closed cell elastomeric insulation
